

## I- PUBLICATIONS DE RECHERCHE

### Thème 1 : Nutrition & désordres métaboliques

1. Kerkenni, M., Saïdi, A., Bouzidi, H., Letaief, A., Ben Yahia, S. & Hammami, M. *Pentosidine as a biomarker for microvascular complications in type 2 diabetic patients* **Diabetes and Vascular Disease Research** 10, Issue (2013) 239-245
2. Kerkenni, M., Saïdi, A., Bouzidi, H., Yahya, S.B., Hammami, M. *Elevated serum levels of AGEs, sRAGE, and pentosidine in Tunisian patients with severity of diabetic retinopathy* **Microvascular Research** 84/ 3, (2012) 378-383
3. Amel Nakbi, Wafa Tayeb, Samia Dabbou, Issam Chargui, Manel Issaoui, Ameur Frih, Zohra Ben Ali, Mohamed A. Alsaif and Mohamed Hammami, *Olive oil protects against 2,4-dichlorophenoxyacetic acid-induced oxidative renal dysfunction in adult rats* **Eur. J. Lipid Sci. Technol.** 2012, 114, 469-478.
4. Anne Vejux, Thomas Montange, Mucy Martine, Amira Zarrouk, Jean-Marc Riedinger, and Gérard Lizard *Absence of oxysterol-like side effects in human monocytic cells treated with phytosterols and oxyphytosterols* **Journal of Agricultural and Food chemistry**, April 10, 2012.
5. Sonia Hammami, Sounira Mehri, Said Hajem, Nadia Koubaa, Hala Souid and Mohamed Hammami *Prevalence of diabetes mellitus among non institutionalized elderly in Monastir City* **BMC Endocrine Disorders** 2012, 12:15.
6. Sounira Mehri, Sinda Mahjoub, Sonia Hammami, Amira Zaroui, Ameur Frih, Fathi Betbout, Rachid Mechmeche, Mohamed Hammami *Renin-angiotensin system polymorphisms in relation to hypertension status and obesity in a Tunisian population* **Mol Biol Rep** (2012) 39:4059-4065.
7. Mohsen Kerkenni, Amel Saidi, Hassan Bouzidi, Ahmed Letaief, Slim Ben Yahia and Mohamed Hammami *Pentosidine as a biomarker for microvascular complications in type 2 diabetic patients* **Diabetes & Vascular Disease Research** 2012
8. Amira Zarrouk, Anne Vejux, Thomas Nury, Hammami I, El Hajj, Madouda Haddad, Mustapha Cherkaoui-Malki, Jean-Marc Riedinger, Mohamed Hammami, and Gérard Lizard *Induction of mitochondrial changes associated with oxidative stress on very long chain fatty acids (C22:0, or C26:0)- Treated human neuronal cells (SK-NB-E)* **Oxidative Medicine and Cellular Longevity**, Volume 2012, p15
9. Sounira Mehri, Sinda Mahjoub, Andeljelil Farhati, Rafik Bousaada, Saida Ben Arab, Bruno Baudin and Mohamed Hammami. *Angiotensinogen gene polymorphism in acute myocardial infarction patients* **Journal of the Renin-Angiotensin-Aldosterone System** V12, N°1 March 2011
10. Sounira Mehri, Sinda Mahjoub, Josef Finsterer, Amira Zaroui, Rachid mechmeche, Bruno Baudin and Mohamed Hammami *The CC genotype of the angiotensin II type I receptor gene independently associates with acute myocardial infarction in a tunisian population* **Journal of the Renin-Angiotensin-Aldosterone System** (2011)

11. Sounira Mehri, Sinda Mahjoub, Sonia Hammami, Amira Zaroui, Ameur Frih, Fathi Betbout, Rachid Mechmeche & **Mohamed Hammami**.  
*Renin-angiotensin system polymorphisms in relation to hypertension status and obesity in a tunisian population.*  
**Mol. Biol. Rep (2011)**
12. Ahmed Barkia, Kamel Mohamed, Maha Smaoui, Nouri Zouari, **Mohamed Hammami** and Moncef Nasri  
*Change of diet, plasma lipids, lipoproteins and fatty acids during ramadan : A controversial association of the considered ramadan model with atherosclerosis risk*  
**J. Heal popul Nutr 2011 oct. 29 (5) 486-493.**
13. Sonia Hammami, Sounira Mehri, Said Hajem, Nadia Koubaa, Mohamed A. Frih, Samy Kammoun, **Mohamed Hammami** and Fathi Betbout.  
*Awareness, treatment and control of hypertension among the elderly living in their home in Tunisia*  
**Bio Med Central Cardiovascular Disorders 2011, 11 : 65**
14. Sounira Mehri, Sonia Hammami, Amel Nakbi, Nadia Koubaa, Rafik Boussaada, Fatma Ouarda, Rachid Mechmeche, Saida Ben Arab, **Mohamed Hammami**  
*Renin-angiotensin-aldosterone system polymorphism : a role or a hole in occurrence and long-term prognosis of acute myocardial infarction at tunisian older people.*  
**Archives of Cardiovascular Diseases Supplements (2011) 3, 79-86.**
15. S. Mahjoub, S. Mehri, E. Ghazouani, F. Ouarda, R. Boussada, R. Mechmeche, **M. Hammami** and S. Ben Arab  
*polymorphism in tunisian patients with dilated cardiomyopathy*  
**Tissue Antigens ISSN 0001-2815 p, 1-5 (2010)**
16. S. Mehri, N. Koubaa, S. Hammami, S. Mahjoub, R. Chaaba, A. Nakbi, S. Zouari, M. Abid, S. Ben Arab, B. Baudin, **M. Hammami**  
*Genotypic interactions of renin-angiotensin system genes with diabetes type 2 in a Tunisian population*  
**Life Sciences 87, p 49-54 (2010)**
17. N. Attia, A.M. Loret, N. Domingo, A. Nakbi, S. Hammami, Kh. Ben Hamda, R. Chaaba, A.S Masmoudi, Ph. Moulin, H. Portugal, D. Lairon, F. Chanussot and **M. Hammami**  
*High density lipoprotein-anionic peptide factor effect on reverse cholesterol transport in type 2 diabetic patients with and without coronary artery disease*  
**Clinical Biochemistry 43 p 1079-1084 (2010)**
18. Sounira Mehri, Nadia Koubaa, Amel Nakbi, Sonia Hammami, Raja Chaaba, Sinda Mahjoub, Bechir Zouari, Mohamed Abid, Saida Ben Arab, Bruno Baudin & **Mohamed Hammami**  
*Relationship between genetic polymorphisms of angiotensin-converting enzyme and methylene-tetrahydrofolate reductase as risk factors for type 2 diabetes in Tunisian patients*  
**Clinical Biochemistry 43, 259-266 (2010)**
19. Sounira Mehri, Bruno Baudin, Sinda Mahjoub, Amira Zaroui, Benedicte Be'ne' teau-Burnat, Rachid Mechmeche, **Mohamed Hammami**, and Saida Ben Arab  
*Angiotensin-Converting Enzyme Insertion, Deletion Gene Polymorphism in a Tunisian Healthy and Acute Myocardial Infarction Population*  
**GENETIC TESTING AND MOLECULAR BIOMARKERS 22 (2010) 85-91**
20. Nebil Attia, Nicole Domingo, Anne Marie- Loret, Amel Nakbi, Sonia Hammami, Khaldoun Ben Hamda, Henri Portugal, Denis Lairon, **Mohamed Hammami** & Françoise Chanussot.  
*Reverse modulation of the HDL anionic peptide factor and phospholipid transfer protein activity in coronary artery disease and type 2 diabetes mellitus.*  
**Clinical Biochemistry 42 (2009) 845-851**
21. Koubaa N, A Nakbi, S Hammami, N Attia, S Mehri, K BenHamda, M Ben Farhat, A Miled, **M Hammami**  
*Association of homocysteine thiolactonase activity and PON 1 polymorphisms with the severity of acute coronary syndrome*  
**Clinical Biochemistry 42, 771-776, 2009**

- 22.** Olfa JBINIANI, Sonia HAMMAMI  
*Particularités cliniques et thérapeutiques du diabète chez le sujet âgé*  
**R. Maghrebine d'Endocrinologie-Diabète et de Reproduction** 13/4 (2008) 242-250
- 23.** R. Chaaba, N. Attia, S. Hammami, M. Smaoui, Kh. Ben Hamda, S. Mahjoub, **M. Hammami**,  
*Association between apolipoprotein E polymorphism, lipids, and cad in Tunisian type 2 diabetes*  
**Journal of Clinical Lipidology** 2 (2008) 360 - 364.
- 24.** Kassab, Th. Ajmi, M. Issaoui, L. Chaeib, A. Miled and **M. Hammami**  
*Homocysteine enhances LDL fatty acid peroxidation, promoting microalbuminuria in type 2 diabetes*  
**Annals of Clinical Biochemistry** 45 (2008) 476 - 480.
- 25.** R. Chaaba, N. Attia, S. Hammami, M. Smaoui, K. Ben Hamda, S. Mahjoub and **M. Hammami**  
*The effect of apolipoprotein E polymorphism on plasma cholestryl ester transfer protein activity in type 2 diabetic patients*  
**Molecular Biology**, 42 / 6 (2008) 931-937.
- 26. Etude méta Analyse** :A. Thompson et al.  
*Association of cholestryl ester transfer protein genotypes with CETP mass and activity, lipid levels, and coronary risk*  
**JAMA** 299, N°23 (2008) 2777-2783
- 27. Mohamed Hammami**  
*Ces Aliments à caractères preventives :Huile d'Olive , un préventif naturel à consommer régulièrement*  
**Article Publié dans le Quotidien « LA PRESSE » Tunis 2 novembre 2006 page 3**
- 28.** M. Smaoui, A. Nakbi, N. Nabli., R. Chaaba, S; Hammami, N. Attia, AS. Masmoudi A. Bousslama & **M. Hammami**.  
*Effects of TAQIB CETP on the relationship between LP(A), lipid parameters and coronary artery disease in tunisian type 2 diabetic patients.*  
**Biologia Tunisie** 4 (2006) 129 - 131.
- 29.** S. Hammami, M. Golli, F. Addad, CH. Hafsa, A. Hamzaoui, S. Mahjoub, A. Gannouni  
*An unusual cas of behcet's disease presenti with postpartum ovarian iliac vein thrombosi and pulmonary embolism.*  
**Thrombosis Journal** 2006, 4 : 20. P 1-6.
- 30.** Hammami S., Yahia SB., Mahjoub S., Kairallah M.  
*Orbital inflammation associated with behcet(s disease*  
**Clin Experiment ophthalmol.** 2006 Mar ; 34(2) : 188-90.
- 31.** Hammami S., Addad F., Koubaa N., Golli M., Chebbi W., Hamzaoui A., **Hammami M.**, Ben Farhat M. Mahjoub S.  
*Pulmonary embolism and behcet's disease*  
**Arch Maladies Coeur Vaiss.** 2006 Sep ; 99(9) 786-90
- 32. Hammami M & M Smaoui**  
*Modulation of plasma cholestryl ester transfer protein activity by unsaturated fatty acids in Tunisian type 2 diabetic women*  
**Site Web ATHEROSCLEROSIS WWW.athero.org Commentary** 553 (02/08/2006) 1-2
- 33.** Smaoui M., Koubaa N., Hammami S.,Abid N., Feki M.,Chaaba R., Attia N., Abid M.,Hammami M  
*Association between dietary fat and antioxidant status of Tunisian type 2 diabetic patients.*  
**Prostaglandins, leukotrienes and Essential Fatty acids** 74 (2006) 323 – 329
- 34.** Kacem K., Sercombe CH., **Hammami M.**, Vicaut E. Sercombe R  
*Sympathectomy causes aggravated lesions and dedifferentiation in Large Rabbit Atherosclerotic Arteries without involving nitric oxide.*

35. M Smaoui, S Hammami, N Attia, R Chaaba, N Abid N Kilani, H Kchou, S Mahjoub, M Abid & **M Hammami**  
*Modulation of plasma cholestryl ester transfer protein activity by unsaturated fatty acids in Tunisian type 2 diabetic women*  
**Nutrition, Metabolism and Cardiovascular Disease** 16 (2006) 44 - 53
36. Chelbi F., Hammami S., Sghaier S., Hamzaoui A., Mahjoub S.  
*Transient monoclonal hypergammaglobulinemia in the course of a rickettsia conorii infection*  
**Med Mal Infect.** 2005 Apr ; 35(4) : 228-9 French.
37. Hammami S., Mahjoub S., Ben Hamda K., Brahem R., Gamra H., Ben Farhat M  
*Intracardiac thrombus in Behcet's disease : two case reports*  
**Thromb J.**, 2005 Jul 25 ; 3:9
38. Denguir H., Ben Hamda K., Gharbi M., Addad F., Hammami S., Mlika A., Abbes F., Moussa A. Betbout F.,  
Gamra H., Maatouk F., Zakhama A., Mahjoub S., Ben Farhat M.  
*Cardiac amyloidosis revealing multiple myeloma*  
**Tunis Med.** 2005 May ; 83(5) : 300-4. French
39. M. NOUR, F BELHAJ, R.M. MAAROUFI, **M. HAMMAMI**, T. MAHJOUB  
*Factor VII polymorphisms associated with plasma factor VII coagulant activity levels in healthy Tunisians.*  
**East Mediterr Health J.** 2005 Jan-Mar;11(1-2):102-8.
40. R Chaaba, S Hammami, N Attia, M Smaoui, AS Masmoudi, S Mahjoub, K ben Hamda & M Hammami  
*Association of plasma cholestryl ester transfer protein activity and polymorphism with coronary artery disease extent in tunisian type 2 diabetic patients.*  
**Clinical Biochemistry** 38 (2005) 373 -378
41. R Sakly, M Bardaoui, F Naffati, A Moussa, A Zakhama, MF Najjar & **M Hammami**  
*Effect of hypoerprotidic diet associated or not with hypercalcic diet on calciul oxalate stone formation in rat*  
**Annal of Nutrition & Metabolism** 49 (2005) 132 – 138
42. Chaaba R, N Attia, S Hammami, M Smaoui, S Mahjoub, **M Hammami** & AS Masmoudi  
*Association of SNP3 polymorphism in the apolipoprotein A-V gene with plasma triglyceride level in Tunisian type 2 diabetes*  
**Lipids in Health and Disease** 4:1 (2005) 1-6 on line
43. Barkia A, M Kamel, R Srairi , **M Hammami** & N Zouari  
*Changement alimentaires chez une population de Tunisiens durant le mois de Ramandan et leurs impact sur les lipides , les lipoprotéines et le profil d'acides gras sérique*  
**Eurobiologiste** 273 (2004) 1-9
44. M. Nour, F. belhaj Slama, K. Monastiri, **M. Hammami**, A.N. Helal  
*Prevalence in a Tunisian Arabic population of Factor VII DNA variants and relation to factor VII plasma levels.*  
**Clinica Chimica Acta** 349 (2004) 199 - 202.
45. Kassab, S. Frechichi, D. Amira, **M. Hammami**, S. Laradi, A. Miled.  
*Plasma phospholipids fatty acid composition in tunisian diabetes type 2.*  
**Arab. J. Clin. Lab. Invest.** vol. 1, n°1 (2004) 69 - 78.
46. M. Smaoui, S. Hammami, R. Chaaba, N. Attia, K. Ben Hamda, AS. Masmoudi, S. Mahjoub, A. Bousslama, M. Ben Farhat, **M. Hammami**  
*Lipids and lipoprotein(a) concentrations in Tunisian type 2 diabetic patients Relationship to glycemia control and coronary heart disease*  
**Journal of Diabetes and Its Complications** 18 (2004) 258-263.
47. S. Hammami, N Koubaa, S. Mahjoub, A Hamzaoui, M Bel Kheria, I Cherif & **M. Hammami**

- 48.** R. Chaaba, S. Hammami, M. Smaoui, N. Attia, AS. Masmoudi, S. Mahjoub K Ben Hamda , M Ben Farhat & **M. Hammami**  
*Apo A5 polymorphism influences human plasma triglyceride levels in Tunisian type 2 Diabetic patients*  
**Atherosclerosis 5,1 (2004) p 89, W14-386**
- 49.** **M. Hammami**, R. Chaaba, S. Hammami, M. Smaoui, N. Attia, AS. Masmoudi, S. Mahjoub K Ben Hamda & M Ben Farhat  
*Association between cholesteryl ester transfer protein activity and coronary artery disease complications in Tunisian patients with type 2 diabetes*  
**Atherosclerosis 5,1 (2004) p 39, w06-170**
- 50.** M. NOUR, F BELHAJ, R.M. MAAROUFI, **M. HAMMAMI**, T. MAHJOUB.  
*Polymorphism associations of factor VII with plasma factor VII coagulant activity levels in healthy tunisians.*  
**Journal of World Health Organization -Eastern Mediterranean (2004).**
- 51.** R. CHAABA, M. SMAOUI, S. HAMMAMI, K. BEN HAMDA, N. ATTIA, A.S. MASMOUDI, S. MAHJOUB, A. BOUSLAMA, M. BEN FARHAT, A. GIRARD-GLOBA, **M. HAMMAMI**.  
Rôle de l'activité et du polymorphisme génétique de la protéine de transfert des esters de cholestérol (CETP) dans les cardiopathies ischémiques chez les diabétiques type 2.  
**Tunisie Médicale 82,3 (2004) 282 -288 .**
- 52.** R. CHAABA, N. ATTIA, M. SMAOUI, S. HAMMAMI, M.K. HNIA, A.S. MASMOUDI, M.N. SLIMANE, N. NEBLI, A. BOUSLAMA, **M. HAMMAMI**.  
*Méthode de mesure de l'activité de la protéine de transfert des esters du cholestérol (CETP) : nouveau marqueur de l'athérosclérose.*  
**Essaydali, 87 (2003) p. 35 - 40.**
- 53.** M.N. BELKHIRIA, S. HAMMAMI, I. CHRAIEF, S. MAHJOUB, and **M. HAMMAMI**.  
*Validation of method for the determination of plasma total homocysteine by gas chromatography-mass spectrometry with stable isotope dilution.*  
**Proceeding of CCLM Monduzzi Editore Medimond ine (2003) 239-242.**
- 54.** M.N. BELKHIRIA, S. HAMMAMI, A. ACHOUR, S. MAHJOUB, M. EL MAY, and **M. HAMMAMI**.  
*Hyperhomocysteinemia in Tunisian renal transplant patients : Risk factor for cardiovascular disease and cyclosporine.*  
**Proceeding of CCLM Monduzzi Editore Medimond ine (2003) 235-238.**
- 55.** K. Ben Hamda, AS. Masmoudi, O. Mandhouj, S. Hammami, N. Attia, M. Smaoui, M.A. Zidi, N. Nabli, R. Chaaba, S. Mahjoub, M. Ben Farhat, **M. Hammami**.  
*Lipoprotein (a) and ischemic heart diseases in patients with 2 diabetes.*  
**Arch Inst Pasteur Tunis (2002) 79 (1-4) 27-23.**
- 56.** SLIMANE MN , S LESTAEL, V CLAVEY, F MAATOUK, M BEN FARHAT, P BENLIAN & **M HAMMAMI**  
CYS 127S (FH-Kairouan) AND D245N (FH-Tozeur) mutations in the LDL receptor gene in Tunisian families with familial hypercholesterolaemia  
**J Medical Genetics 39, 11 (2002) e 74- 78 ;**
- 57.** NABLI N. , M. SLIMANE, A. BOUSLAMA, A. OMEZZINE, S. LARADI S., I. GARCIA, J. DRAI, E ? BARNIER E. **M. HAMMAMI**, A. MILED, A. REVOL  
Arachidonate to fatty acids ratio of circulating sterides and phospholipids: a risk factor of coronary stenos ? A Tunisian study  
**Ann. Biol. Clin. 59,6 (2001) 743-749.**

- 58.** SLIMANE M.N., LESTAVEL S., SUN X.M, MAATOUK F., SOUTAR A.K., BEN FARHAT M.H., CLAVEY V., BENLIAN P. and **HAMMAMI M.**  
*Fh-Souassi : A Founder Frameshift mutation in Exon 10 of the LDL-Receptor Gene, Associated with a Mil Phenotype in Tunisian Families.*  
**Atherosclerosis, 154, 3 (2001) 557-565.**
- 59.** SLIMANE M.N., X.M. SUN, F. MAATOUG, A.K. SOUTAR, **M. HAMMAMI**  
*Identification of two mutations causing familial hypercholesterolemia in Tunisia*  
**ATHEROSCLEROSIS, vol. 134 N°1,2 (1997) 72.**
- 60.** ZILI J., SLIMANE M.N., MAATOUK F., ZAKHAMA A., POUSSE H., HAMMAMI S., AYARI M., BFARHAT M.,**HAMMAMI M.**  
*Manifestation cutanées au cours de l'hypercholestérolémie familiale type IIa homozygote à propos de 33 cas du centre et du sud Tunisien.*  
**Les nouvelles dermatologiques, 14, n°5 (1995) 320-325.**
- 61.** M. S. SOLTANI, A. BCHIR, M.N. SLIMANE, A. MTIROUI, H. GHANEM, **M. HAMMAMI**, M. EL MAY, M.N. GUEDDICHE, R., BEN AMMAR et M. SIDHOM  
Etude de la transmission mere-enfant du virus de l'Hépatite B dans le sahel Tunisien.  
**Rev. Epidémio. et Santé Publ. 42 (1994) 529-532.**
- 62.** NOURI, H. POUSSE, M. BELGHITH, M. MEKKI, **M. HAMMAMI**, A. HAMDI, M.H. TABKA, R. BEL HADJ HMIDA

*A serum-free meium with or without a carrier protein supports the growth of the y-1 mousse adrenocortical cell line and its steroidogenic function.*  
**Cell Biology International Reports, 12 (1988) 527 - 536**
81. HAMMAMI M., C. LEGENDRE & B.F. MAUME  
*Induction of corticosteroid biosynthetic pathway by ACTH and high-dénsity lipoprotein in newborn rat adrenocortical cents cultured in serum-free medium*  
**Biochimica et Biophysica Acta, 886, (1986) 457-467**
82. HAMMAMI M., G. MAUME & B.F. MAUME  
*Rote of albumen for cholesterol transport and on the steroidogenic pathways in serum-free medium newborn rat adrenocortical cells cultures.*  
**Cell Biology International Reports, 10, (1986) 649-658**
83. HAMMAMI M., G. MAUME & B.F. MAUME

*Expression of ACTH-induced corticosteroid biosynthesis in newborn rat adrenocortical cents cultured in serum-free and carrier-free medium containing a cholesterol- $\alpha$ -cyclodextrin complex.*  
**Cell Biology and Toxicology, 2, (1986) 41-52**

**84. DULERY B. , M. HAMMAMI & B.F. MAUME**

*De novo biosynthesis of cholesterol and steroid from acetate in newborn rat adrenocortical cents in primary culture with or without serum in the culture medium*  
**Biology of the Cell, 45, (1982) 26**

**85. HAMMAMI M., B. DULREY & B.F. MAUME**

*Cholesterol uptake and steroid hormone biosynthesis from cholesterol-high density lipoprotein by newborn rat adrenocortical cells cultured in chemically defined medium*  
**Biology of the Cell, 45, (1982) 20**

**86. DULERY B., M. HAMMAMI & B. F. MAUME**

*Métabolisme d'un hypolipidémiant, le fénofibrate (LF 178) "in vivo" chez le Rat et l'Homme Identification et dosage des métabolites par chromatographie gaz-liquide-spectrométrie de masse (GC-MS)*  
**European Journal of Mass Spectrometry in Biochemical Medicine and Environmental Research, 2, (1980)**

**87. DULERY B., M. HAMMAMI, M. CHESSEBEUF, C. LEGENDRE, P. NOLY, P. PADIEU & B.F. MAUME**

*Métabolisme du fénofibrate et de l'acide fénofibrique "in vivo" et dans les cultures épithéliales hépatiques.*  
**La nouvelle Presse Médicale, 9, (1980) 3729 - 3732**

**88. HAMMAMI M., B. DULERY & B.F. MAUME**

*Réarrangement du groupe triméthylsityle en spectrométrie de masse en ionisation chimique-méthane dans le cas de métabolites réduits du fénofibrate sous forme d'éther de triméthylsityle.*  
**European Journal of Mass Spectrometry in Biochemical Medicine and Environmental Research, 2, (1980)**
